- **October 2024** - Stawell Show Sponsorship
- **February 2025** - Project update
- **February 2025** - Community Information Sessions

## COMMUNITY FEEDBACK HAS DIRECTLY INFLUENCED THE DESIGN OF THE PROJECT, THIS HAS INCLUDED:

- Relocation of turbines where possible away from sensitive areas.
- Removal of Vineyard rd for project access. Smaller local roads will no longer be required and all traffic movements for deliveries will be from Landsborough Road.
- Relocation of BESS facility away from Landsborough Road to reduce noise and visual impacts.

Refer to the Summary of Changes poster to find out more.
